	Ledyne Ster.	Courville (xx) Fedyne II Ster.	by Fair Trial (xx) by French Meckle

Voltaire II is a very attractive, correct and athletic Dutch Warmblood stallion who offers some of the most proven and sought after performance bloodlines of today, with both his famous sire "Voltaire" and equally famous dam-sire "Nimmerdor" having become world acclaimed for their enormous impact on sport horse breeding and performance. Not only did both of these stallions compete very successfully at international level themselves, this pedigree cross has been also particularly successful in producing high calibre showjumpers, a fact which is clearly reflected in Voltaire II's own powerful jumping technique and attitude.

Voltaire II has a wonderful temperament - he is very kind, calm, playful and intelligent. He has a beautiful head and is a very well conformed, elegant stallion with colourful markings that he often passes onto his progeny. His movement is elevated and elastic with lots of spring and scope. His talented progeny already hold many National titles in Eventing, Showjumping, Dressage and Showhunter, upgrading him to 'Principle' status in the NZWHA studbook. Voltaire II is a quality stallion, now well proven to produce beautiful, intelligent, athletic, versatile performance horses.

Stud Fee: NZ\$2250 all inclusive. AI only. LFG & Service Contract.
